EXPERIENCE +7

PROGRAM MANAGER

Cognizant Softvison | June 2019 - Currently

Performed as an agile delivery manager with four teams on 4 different projects working together for Softvison, the client (Mulesoft and Mozilla) and the Romania Softvison studio. Managing client relations, hirings, budgets, project scope, strategy reports and optimization of procedures for all stakeholders both on the engineering and the operational side.

FELLOW ON ACCESS

Article19 | March 2018 - Currently

Attended International Telecommunication Union (ITU) conferences and high level plenipotentiary meetings to provide strategy documents and outputs regarding the alternative networks deployments movement. Created a coalition with allies and stakeholders for contribution development.

PROJECT MANAGER | PRODUCT MANAGER | OPERATIONS MANAGER

Pixel2HTML | Jan 2017 - June 2019

As the lead project manager I work with small and medium projects, mostly focused on frontend development across different web technologies. I'm in charge of project planning, execution and closure on different time zones and languages for both clients and developers.
